

PROGRESS ON DIFFERENCE EQUATIONS

PODE 2023

This is the 13th International Conference which follows those held each year since 2007. After 2017, the workshop PODE alternates each year with the European Conference on Iteration Theory ECIT and therefore is being held every two years. This conference continues in the line of other PODE workshops: Laufen (Germany) in 2007, Laufen (Germany) in 2008, Bedlewo (Poland) in 2009, Xanthi (Greece) in 2010, Dublin (Ireland) in 2011, Richmond (Virginia, USA) in 2012, Bialystok (Poland) in 2013, Izmir (Turkey) in 2014, Covilhã (Portugal) in 2015, Riga (Latvia) in 2016, Urbino (Italy) in 2017 and Bragança (Portugal) in 2019.

The conference is held under the auspices of the International Society for Difference Equations (ISDE), the Association for Mathematics Applied to Social and Economic Sciences (AMASES), the Italian Society for Chaos and Complexity (SICC), the Department of Mathematics for Economic, Financial and Actuarial Sciences (DiMSEFA) of the Università Cattolica del Sacro Cuore, and the Department of Management of the Università di Torino.

The conference aims to bring together both junior and senior researchers to exchange new ideas and the latest developments in their research. Participants will present the recent progress in the areas of difference equations and discrete dynamical systems.

Scientific committee:
